Technical Information

IGLOOS trailers are re-circulating and self-sufficient, requiring no connection other than a power supply from either the mains or a generator. A water supply on standby is recommended. These units may be connected to mains drainage and water supplies for longer term hire. When considering the siting of a trailer please allow an additional 4' 6" for the tow hitch. The site should be level with good access for delivery with a Land Rover taking into account any turning circle.

Consumables

Scottish Fine soap and hand cream, loo paper and paper hand towels are supplied as standard.
